ABOUT ME

Results-driven Full-Stack Developer with 3+ years of professional experience delivering responsive, high-performance web applications. Specialized in React.js, Next.js, TypeScript, Node.js, and Strapi CMS, with a strong focus on performance optimization, clean UI/UX, and maintainable code architecture. Experienced in leading frontend initiatives, collaborating with cross-functional teams, and delivering pixel-perfect, scalable digital solutions for enterprise and startup environments.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), jQuery, HTML5, CSS3, Tailwind CSS, Sass, Framer Motion, GSAP, Material UI, Bootstrap, Storybook

Backend & CMS: Node.js, Strapi, NextAuth, Firebase, Supabase

Development Tools: Git, GitHub, GitLab, VS Code, Figma, Webflow, Postman

Other Skills: API Integration, Performance Optimization, Team Management, Product Management, Project Coordination

Methodologies: Agile, Scrum, CI/CD, Responsive Design, Cross-Browser Compatibility, Code Reviews

EXPERIENCE

Ather Energy | Full-time — Frontend Developer — Feb 2023 - Present

- Led end-to-end development of Ather's digital ecosystem, delivering 15+ high-performance, SEO-optimized pages with scalable architecture.
- Revamped key customer interaction flows with enhanced UX and content design — driving ~21% yearly growth in clicks, 10% in impressions, and 45–60% annual rise in lead conversions over 3 years.
- Integrated Strapi CMS, enhanced APIs, and improved performance, reducing load times and boosting site stability..
- Built reusable components and a Storybook library, improving UI consistency and development speed by 30%.
- Resolved bugs, reviewed PRs, and collaborated across teams, reducing client issues by 20% and improving fix time by 50%

4monks Consulting | Full-time — Senior Frontend Developer — Jan 2023 - Present

- Delivered and contributed to 20+ national and international projects using Next.js, React, Sass, JavaScript, and jQuery
- Managed client communication, requirements, and delivery timelines, ensuring on-time, high-quality completion
- Created reusable components and optimized codebase, improving scalability and cutting development time by 25%

Permissionless | Full-time — Junior Frontend Developer — July 2022 - Jan 2023

- Developed responsive, animated UIs using React, GSAP, and Framer Motion for web applications and a freelancing platform, enhancing interactivity and performance
- Contributed to 10+ projects, building reusable TypeScript components and delivering pixel-perfect, maintainable UIs

PROJECTS

My Portfolio:

- Built with Next.js, TypeScript, Tailwind CSS, and Supabase, featuring interactive blogs and code snippets powered by MDX, with pages like Projects, Blogs, Snippets, About, Contact, and more. - nitinkanhurkar.vercel.app

SweetShorty :

- Constructed SweetShorty with Bitly API integration, delivering a seamless solution for generating trackable short links and QR codes; project was completed within a 4 week period. - sweetshorty.vercel.app

KGen Gaming:

- Built a modern gaming website with Next.js, React, and GSAP animations, focused on performance, responsiveness, and dynamic user interaction. - kgen.io

Ather Digital Experience:

- Delivered a multi-page responsive platform with CMS integration and implemented fluid animations for faster, seamless interaction, performance, and engagement. - atherenergy.com

~ More featured projects are showcased in [my portfolio](#)
